

# Titanic and Liverpool: the untold story

## Group Leader's information

This trail is designed for Key Stage 1 visitors to the Titanic exhibition to be able to engage more easily with the objects and stories.

- It is entirely up to you whether each child would have their own worksheet or if you would prefer them to work in small groups
- Although the language level is age appropriate, you may still wish an adult to take the lead in reading
- There is a mix of object location, fact finding, extra information, things to think about and ideas for activities to do back at school or at home
- Please bring pencils with you as we cannot provide any at the museum
- The different sections of the exhibition are as follows:

**Section 1: Home Port and Olympic Class**

**Section 2: Voyage**

**Section 3: 2 Hours 40 Minutes**

**Section 4: Aftermath**

**Section 5: Living On**

Here is a simple floor plan of the exhibition so that you can easily find in which section the different objects are located.
