

Sudley House Access Information

Limited parking (two temporary bays at the time of writing) is available immediately outside the building in the grounds of the house, and visitors can be dropped off right outside the front door (we would advise visitors against coming by car unless necessary).

The main entrance is accessed via a ramp.

Exhibition and learning areas on both floors are wheelchair accessible, with a lift between the two floors.

There are four video screens in the venue. All are at a height suitable for viewing by someone in a wheelchair. Three of the four screens are touch screens and the user is requested to select either the video option or the BSL with subtitles version. The fourth screen is a plasma screen and has push buttons instead. All four of these screens also have induction loops fitted.

There are wheelchair accessible toilets on both the ground and first floors.

The tearoom is accessible by wheelchair. Neither tables nor chairs are fixed to the floor. There is a lowered service counter and waitress service is available. Large print menus are available.

Assistance dogs are welcome.

Documents can be requested in large print.
